

CYBERSECURITY SUMMIT

FEBRUARY 17-20, 2026
HYATT REGENCY RIVERFRONT | JACKSONVILLE, FL

Plan Your Summit Experience!

Explore three focused tracks covering all aspects of cybersecurity:

- **Executive Responsibility Track** – for non-IT executives shaping cyber policy and governance
- **Strategic Cybersecurity Track** – for decision-makers and security leaders
- **Cybersecurity in Practice** – for technical professionals in the trenches

EXECUTIVE RESPONSIBILITY TRACK

- ___ Cybersecurity's Role in Protecting Sovereignty
- ___ Executive Cyber 101 - the common foundational cyber policies, procedures, and operations to know
- ___ Cybersecurity Budgeting - an executive perspective and guide to budgeting and sharing risks
- ___ Cyber Insurance - what to expect and what to ask for
- ___ The Executive Role in Creating a Culture of Security

STRATEGIC CYBERSECURITY TRACK

- ___ Cyber KPIs and Metrics - what you need to share with the executive team
- ___ The Journey to Cyber Maturity - an open discussion presented from a small, medium, and large tribe perspective
- ___ Cybersecurity Policy and Data Governance
- ___ AI's Effect on Cybersecurity - staying informed
- ___ Tabletop Cyber Exercises (TTX) - creating your own TTX to engage both the executive and technical teams
- ___ Security Awareness Training - keeping it meaningful and effective
- ___ The Value of 3rd-Party Assessments and How to Engage for Meaningful Results

CYBERSECURITY IN PRACTICE TRACK

- ___ Vulnerability and Patch Management - a success story
- ___ The Cybersecurity AI Tools You Need to Know About Now
- ___ Cyber Threat Hunting - the tricks and tools as you mature as a threat hunter
- ___ Business Email Compromise (BEC) - technology solutions to a people problem
- ___ Cybersecurity on a Budget - protecting your tribe when you have little or no dedicated cyber resources
- ___ Hacker 101 - wifi cracking - see and learn the tools of your potential adversaries
- ___ Hacker 102 - using open source intelligence tools (OSINT)
